On behalf of Oman International Trade and Exhibitions (OITE), I am pleased to inform you of our upcoming 'COMEX IT and Telecom Conference' which is to be held between the 27th – 28th May 2009, at the Golden Tulip Muscat, Oman.

First, kindly allow me to provide you with a brief introduction to the event organiser. OITE is the Sultanate's premier events company with over 20 years experience in organising international trade fairs, conferences, festivals and events. OITE stands out in its focus to deliver meaningful events which bring together like-minded people and offer them exceptional opportunities. For detailed information about us please visit: www.oite.com.

The objective of the 'COMEX IT and Telecom Conference' is to provide a unique platform to explore and learn about the latest developments in technological solutions and applications available to the business sector. The conference will also prompt the working solutions required to combat the negative effects of the global economic downturn and secure a successful 2009.

The event is expected to be attended by distinguished industry professionals including major organisation presidents, CEOs, CIOs and CTOs, representatives from government sectors as well as the leading providers of the latest IT and Telecommunications technologies.

We warmly encourage your organisation to participate and attend the 'COMEX IT and Telecom Conference'. Please call on +968 24 564303 or email: james@oite.com

We look forward to welcoming you to this exciting conference!

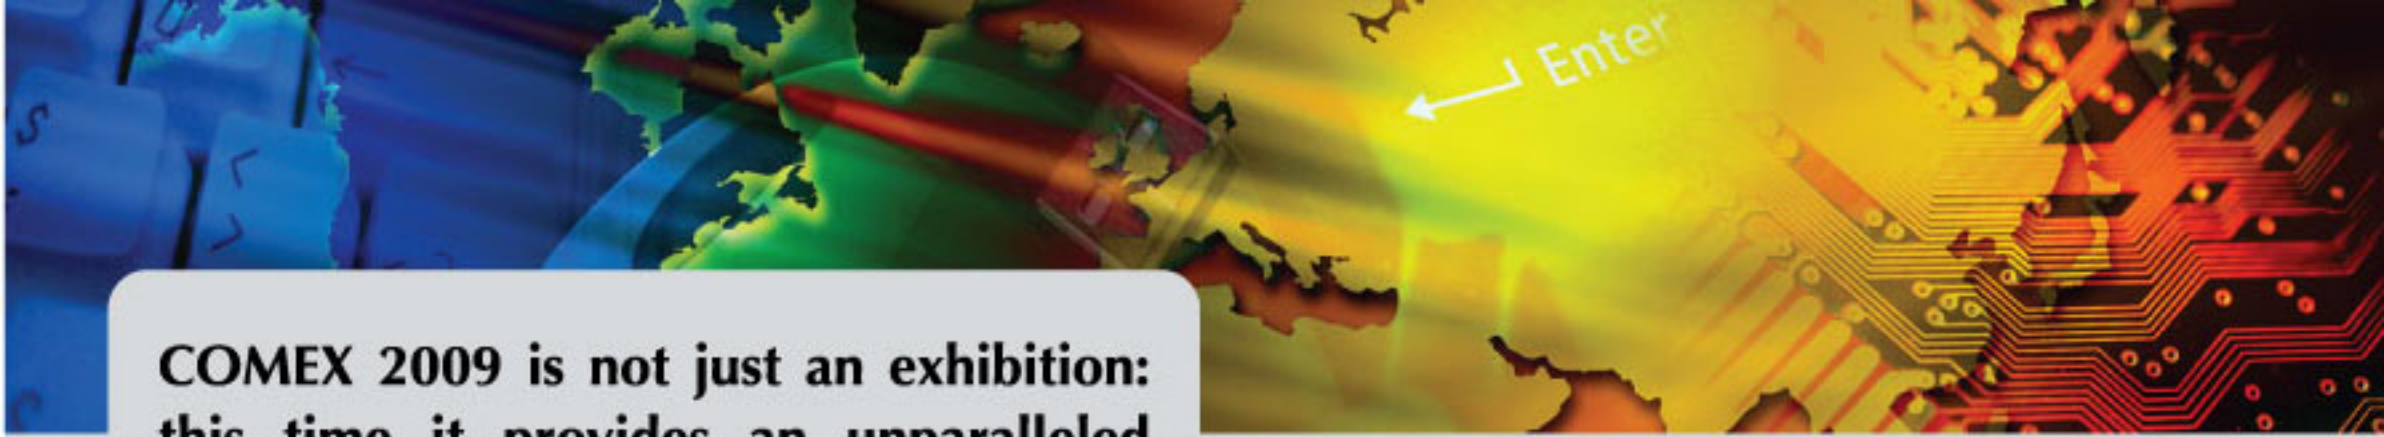

Yours sincerely,

Sherwin Sevilla

CHALLENGES AND SOLUTIONS

COMEX 2009 is not just an exhibition: this time it provides an unparalleled platform to explore and learn about the very latest technology solutions and applications designed for the business sector.

The IT and Telecom industry is now one of the most dynamic and fast-growing sectors in the gulf region. The increasing number of global IT companies and deregulation of the Telecom market over recent years provide an insight into the industry's immense regional growth potential.

The 'COMEX IT and Telecom Conference' is organised as a complementary sideline to the annual COMEX Exhibition. The event is comprised of a two day conference designed to provide a platform for IT and Telecom industry professionals, decision-makers and stakeholders. It is the best venue to exchange views, create strategies, address critical issues and present the latest research in IT and Telecom.

Key Objectives:

- ◆ Support the development and growth of the IT and Telecom sector
- ◆ Help industry stakeholders and professionals seek solutions to the effects of the global financial crisis, realign present IT strategies and identify solutions through the latest applications and information processes
- ◆ Provide fresh insights on how to operate more efficiently, minimise cost and overcome day to day challenges, whilst addressing customer requirements

Attendee Profile

The conference will be attended by a group of local and international decision makers from the IT and Telecom industry including:

- ◆ Representatives from Government Sectors
- ◆ Presidents, CEOs, CIOs and CTOs
- ◆ Executives from the Banking and Financial Sectors
- ◆ IT Directors and Managers
- ◆ IT and Telecom Consultants and Advisors
- ◆ Foreign and Local Investors
- ◆ IT Vendors and Suppliers

Why You Should be Involved

This conference will showcase the latest technological solutions for the business sector. The challenges facing today's IT and Telecom industry will be addressed in relation to the new opportunities, products and solutions available.

Have a Chance to...

- ◆ Review the latest technologies which can help improve efficiency and reach new business potential
- ◆ Network with regional and international peers, leading IT and Telecom experts, professionals and industrial partners
- ◆ Confirm your organisation's corporate social responsibility and "Green-IT" potential

The COMEX conference and exhibition brings you up close and personal with people and products that shape the future of IT and Telecommunication Technology.
